

Specification

The concept of the frozen grits is to prepare a conventional meal or side dish through easy preparation and serving capabilities. The frozen grits are pre-cooked for instant serving. The frozen grits are packaged in units of four or six individual servings, and unlike its other frozen counterparts this design is stored in its own microwaveable bowl. For preparation, simply remove from the single-serve package and place in microwave for three minutes to cook. Once the grits are removed from the microwave stir and serve. Uniquely the design is producible in a variety of bowl sizes and colors. The frozen grits are targeted to the general public and are marketable at any grocery store, warehouse clubs, wholesalers, home shopping program, mail order catalogs, and web sites.
